The Cafco Sprayhead MK2 has been improved from the original sprayhead to keep pace with our increased product range. The MK2 will spray all wet spray fire protective products manufactured by Cafco International.

The Sprayhead comes complete with: –

(1) An 11mm spray nozzle for fine to medium textured finishes to Cafco's fire protection products.

(2) A 14mm spray nozzle for maximum production rates or where a coarse to heavy textured finish is required for Cafco's fire protection products.

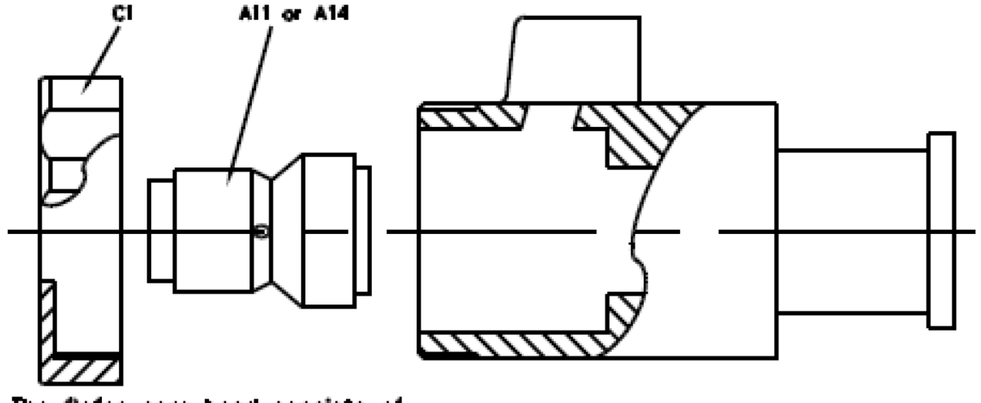

TYPICAL CAFCO SPRAYHEAD ARRANGEMENT

KEY:

1. Cafco Sprayhead.
2. 1 1/4" I.D. unreinforced plastic hose.
3. Air line coupling to sprayhead.
4. Regulating valve to vary air pressure at sprayhead.
5. Pressure gauge.
6. On/Off valve for air.
7. Main air line feed.
8. Main feed hose from mono pump type spraying machine.
9. Flow valve (if required).
10. Air control to operate mono pump.

CAFCO SPRAYHEAD
